INDEX TO AUTHORS.

ABDOOSH, Y. B., some observations on the agglutination of *V. choleræ*, 42

ADLER, J., see *Patterson, J.*

AITKEN, H. A. A., see *Begg, A. M.*

ANDERSON, D. F., the serum calcium content in eclampsia, 182

——— and TOMPSETT, S. L., observations on the inorganic sulphur content of the blood in eclampsia, 130

ANDERSON, E. J. M., see *Mackie, T. J.*

ANDREWES, C. H., influence of the bacterial cell on the phage-antiphage reaction, 85

——— see *Elford, W. J.*

——— and ELFORD, W. J., the "killing" of bacteria by bacteriophage, 13

BEDSON, S. P., the nature of the elementary bodies in psittacosis, 65

——— and BLAND, J. O. W., a morphological study of psittacosis virus, with the description of a developmental cycle, 461

BEGG, A. M., and AITKEN, H. A. A., the effect of tumour regression and tissue absorption on some properties of the serum, 479

BLAND, J. O. W., see *Bedson, S. P.*

BRAIN, R. T., the demonstration of herpetic antibody in human serum by complement fixation, and the correlation between its presence and infection with herpes virus, 166

BROOM, J. C., see *Brown, H. C.*

——— and BROWN, H. C., migration rate and virulence of *C. diphtheriæ*, 337

BROWN, H. C., see *Broom, J. C.*

——— and BROOM, J. C., further observations on bacterial cataphoresis, 334

CARLETON, H. M., see *Florey, H.*

CHAMBERLAIN, E. N., and CORLETT, R. L., cholesterol variations in experimental anæmias, 299.

COOPER, K. E., see *Gordon, J.*

CORLETT, R. L., see *Chamberlain, E. N.*

CRAIGIE, J., the nature of the vaccinia flocculation reaction, and observations on the elementary bodies of vaccinia, 259

DAU, H., see *Pijper, A.*

DUNCAN, J. T., the relation of optimal agglutination to the equivalent serum-suspension ratio, 498; the use of equivalent proportions of antigen and serum in absorption of precipitin, 489

DUNGAL, N., Schick tests in Iceland, 360

ELFORD, W. J., see *Andrewes, C. H.*

——— and ANDREWES, C. H., the filtration of vaccinia virus through gradocol membranes, 36; the sizes of different bacteriophages, 446

FINDLAY, G. M., intranuclear bodies in the liver cells of mice, 223; the transmission of louping ill to monkeys, 230

FINKELSTEIN, M. H., see *Mackie, T. J.*

FLOREY, H., mucous changes in the epithelial cells of the rat's vagina during the early stages of pregnancy, 323; experimental inflammation of the colon: (*a*) relationship of mucus production in goblet-cells to the Golgi apparatus; (*b*) mitochondrial changes, 349

——— CARLETON, H. M., and WELLS, A. Q., mucus secretion in the trachea, 269

FRASER, A. H. H., see *Mackie, T. J.*

FRASER, F. H., and ROSS, M. A., the effect of streptococcal toxin on chinchilla rabbits, 51

FRY, R. M., the isolation of organisms in the presence of *B. proteus*, 456

GOHAR, M. A., a serological study of *V. choleræ* and related vibrios, 371

GORDON, J., and COOPER, K. E., a study of the phosphorus distribution in bacterial cultures. III. The phosphatase activity of *B. coli* and staphylococcus, 503

GOULSTON, D., the action of Beta radiations from radium on the chorio-allantoic membrane of the chick embryo, 317

——— and MOTTRAM, J. C., on the technique of exposing the chorio-allantoic membrane of the chick embryo for experimental purposes, 175

GRIFFITHS, W. J., see *de Wesselow, O. L. V.*

GYE, W. E., the propagation of Fujinami's fowl myxosarcoma in ducklings, 458

HENDERSON, D. W., studies on *Clostridium chauvœi*. I. The analysis of the H and O antigens of *C. chauvœi*, 412; II. Active immunization with pure O antigen, 421

HINDLE, E., an attempt to demonstrate residual virus in monkeys which had recovered from yellow fever, 135

HOLMES, B. E., and PIRIE, A., growth and metabolism of the bovine pleuro-pneumonia virus, 364

JENKINS, C. E., a displacement method for estimating the cell-volume in blood, 127

JENNER, H. D., and KAY, H. D., plasma phosphatase. III. A clinical method for the determination of plasma phosphatase, 22

KAY, H. D., see *Jenner, H. D.*

KLIGLER, I. J., and OLITZKI, L., studies on protein-free suspensions of viruses. IV. The antigenic properties and serological reactions of protein-free suspensions of phage, 237

LAING, A. W., see *Maitland, H. B.*

LIGNERIS, M. J. A. DES, the hydrogen-ion concentration of fowl's blood in Rous' sarcoma and in infections (avian tuberculosis and salmonellosis), 189

LYTH, R., see *Maitland, H. B.*

MACKIE, T. J., FRASER, A. H. H., FINKELSTEIN, M. H., and ANDERSON, E. J. M., the influence of nutrition on susceptibility to a bacterial toxin, 328

MAITLAND, H. B., LAING, A. W., and LYTH, R., observations on the growth requirements of vaccinia virus *in vitro*, 90

MARRACK, J., and SMITH, F. C., quantitative aspects of immunity reactions: the combination of antibodies with simple haptenes, 394

MILES, A. A., see *Wilson, G. S.*

MORGAN, W. T. J., the estimation of small amounts of a specific bacterial polysaccharide by the induction of anaphylaxis, 342

——— see *Petrie, G. F.*

MORRIS, N., RENNIE, J. B., and MORRIS, S., on the effect of the intravenous injection of glycine on the serum calcium, 132

MORRIS, S., see *Morris, N.*

MOTTRAM, J. C., see *Goulston, D.*

OLITZKI, L., see *Kligler, I. J.*

PATTERSON, J., and ADLER, J., the non-applicability of the Schütz-Borrisow law in the estimation of pepsin activity by Mett's method, 72

PETRIE, G. F., a specific precipitin reaction associated with the growth on agar plates of meningococcus, pneumococcus and *B. dysenteriæ* (Shiga), 380

——— and MORGAN, W. T. J., the curative action of anti-pneumococcus serum (type I) in mice, 96

PIJPER, A., and DAU, H., cross immunity between South African typhus and tick-bite fever, 33

PINFIELD, S., see *Pope, C. G.*

POPE, C. G., the production of toxin by *C. diphtheriæ*. I. Energy sources, 207; II. Effects produced by additions of iron and copper to the medium, 218

POPE, C. G., and PINFIELD, S., the production of coccal forms of *C. diphtheriæ* in media containing copper, 60

PURDY, W. J., the propagation of the Fujinami fowl myxo-sarcoma in adult ducks, 467; the propagation of the Rous sarcoma No. 1 in ducklings, 473

RENNIE, J. B., see *Morris, N.*

ROBINSON, G. L., the growth of *B. pyocyaneus* in synthetic media, 310

ROSS, M. A., see *Fraser, F. H.*

SCHÜTZE, H., studies in *B. pestis* antigens. I. The antigens and immunity reactions of *B. pestis*, 284; II. The antigenic relationship *B. pesits* and *B. pseudotuberculosis rodentium*, 289; III. The prophylactic value of the envelope and somatic antigens of *B. pestis*, 293

SMITH, F. C., see *Marrack, J.*

SMITH, W., a heat stable precipitating substance extracted from vaccinia virus, 434

SPENCE, A. W., the basal oxygen consumption of goitrous and non-goitrous rats, 149; the effect of vitamin deficiency on the structure of the thyroid and thymus glands, 157

TAYLOR, N. B., and WELD, C. B., the mobilization and excretion of calcium following overdosage with irradiated ergosterol, 109; the toxic effects of excessive doses of irradiated ergosterol upon young animals, 403

TODD, E. W., antihæmolysin titres in hæmolytic streptococcal infections and their significance in rheumatic fever, 248

TOMPSETT, S. L., see *Anderson, D. F.*

WELD, C. B., see *Taylor, N. B.*

WELLS, A. O., see *Florey, H.*

DE WESSELOW, O. L. V., and GRIFFITHS, W. J., the blood guanidine in hypertension, 428

WHITE, F. D., on serum bilirubin. I. The diazo reaction as a quantitative procedure, 76

WHITEHEAD, R., cortical proliferation in the mouse suprarenal after peptone, 200

WILKINSON, J. F., the action of acetylcholine on the gastric secretion in man, 141

WILLS, L., spontaneous fluctuations in the reticulocyte count in pigeon's blood, 172

WILSON, G. S., and MILES, A. A., the serological differentiation of smooth strains of the Brucella group, 1

ZOZAYA, J., the standardization of antidysenteric serum (Shiga), 28
